## Interactive GIS Mapping Application

**Explore Adams**

Adams County, Pennsylvania

### 1 Floodplains

This map depicts regulatory flood hazard information in the form of the National Flood Hazard Layer (NFHL). The NFHL contains flood hazard mapping data from FEMA's National Flood Insurance Program (NFIP) and Letters of Map Amendment (LOMAs).

The information is provided for visual and educational purposes only. For FEMA flood maps, official public flood hazard information, and tools to better understand flood risk, please visit the:

Adams County, Pennsylvania

Find address or place

Earthstar Geographics | ACOPD | PA DCNR, GNMP

POWERED BY **esri**

Map showing Adams County, Pennsylvania, with various layers and features highlighted. The map includes labels for towns such as York Springs, Uniontown, Tyrone, Reading, East Berlin, Hamilton, Abbottstown, Berwick, McSherrystown, Mount Pleasant, Bonneauville, Gettysburg, Cumberland, Mount Joy, Littlestown, Germany, Union, Liberty, Carroll Valley, Freedom, Fairfield, Hamiltonban, Highland, Franklin, Arendtsville, Butler, Straban, New Oxford, Oxford, and Berwick. The map also shows a search bar, navigation controls, and a scale bar.

# Quick Tour of Explore Adams – Parcel Query

This search provides more options for parcel selection than the Find Address or Parcel search bar in the top left corner.

Selection results are added to the layer list and can be turned off/on.

A dialog box titled "Parcel Query" with a close button (X) in the top right. It has two tabs: "Search Parcel By" and "Results". Under "Search Parcel By", there are three checkboxes: "Parcel ID", "Property Location", and "Deed Reference". A yellow callout bubble points to the "Property Location" checkbox with the text "Parcel Query Options to Search".

Parcel Query Options to Search

A dialog box titled "Parcel Query" with a close button (X) in the top right. It has two tabs: "Tasks" and "Results". The "Tasks" tab is active, showing a back arrow, "Parcel ID", and "Query criteria". Under "Query criteria", it says "Parcel ID is" followed by an empty text input field. Below the input field, it says "16 Digits: 00X00-0000-000" and "1=1". At the bottom, there is a green "Apply" button.A dialog box titled "Parcel Query" with a close button (X) in the top right. It has two tabs: "Tasks" and "Results". The "Tasks" tab is active, showing a back arrow, "Property Location", and "Query criteria". Under "Query criteria", it says "Property Location" followed by an empty text input field. Below the input field, it says "Abbreviate Type or Omit ie. RD, ST, LN" and "1=1". At the bottom, there is a green "Apply" button.

# Quick Tour of Explore Adams – **Select and Report**

This search puts the selected parcel(s) information and map into a printable report.

1. Locate a parcel by searching by location (address). The parcel may also be buffered by including a buffer distance.

**Select and Report** [X]

Locate a Parcel [Search]

Locate Parcel | Draw

Search for a location

Buffer distance (optional)

Show results within 0 Miles

Report Start Over

2. Multiple parcels may also be selected. Click the 'Draw' box.

3. Choose the preferred mode of selection and draw the area of interest. *Select by rectangle or polygon* works best to select multiple parcels.

**Select and Report** [X]

Locate a Parcel [Search]

Locate Parcel | Draw

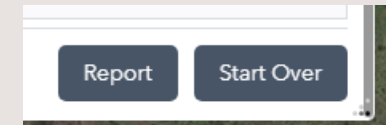

Select draw mode

Buffer distance (optional)

Show results within 0 Miles

Report Start Over

6. Once the parcel (s) is selected, click Report button

7. In the Report screen, there is an option to print a map with the parcel attributes.

**Select and Report** [X]

Report [Search]

< Back Area: 16.16 acres
